## Кондитерские инструменты

PILLY4

A simple idea with great results: a small triangle for stacking and attaching baking trays at right angle to each other in a safe, easy and secure way.

Ideal for saving space in the kitchen, transporting for catering and stacking sweet or savoury dishes before, during and after cooking.

Food-grade silicone product resistant to temperatures from -40°C to +250°C.

Patented product

4 pcs per kit

BB45

PVC rolls, 200 mt. length, available in different heights.

H mm 43

Thickness 100 micron

SFP2

Praline forks with stainless steel wire.

SP301

Made of platinum silicone, resistant up to 250°C.

Small details that make the difference: "hang on" handle for an easy support during the preparations, edge cleaner groove to scrape the mixture and extra-grip handle, resistant up to 220°C, for the best ease of use.

The joint between the blade and the handle is watertight, ultra resistant for the best hygiene and longevity.

Length: 260 mm

Handle length: 170 mm

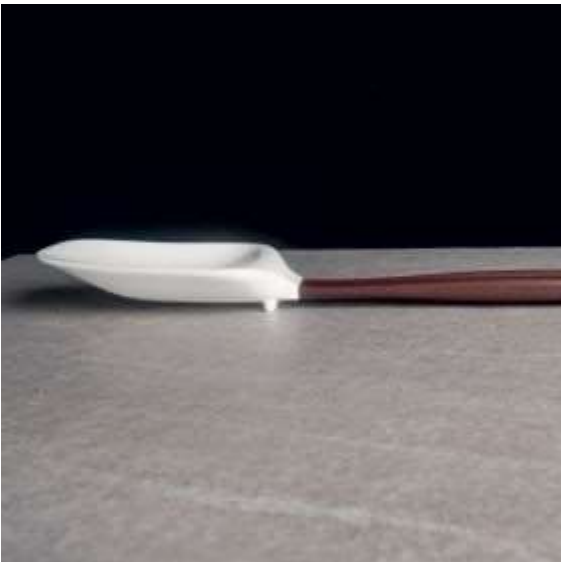

SP300

Made of platinum silicone, resistant up to 250°C.

Small details that make the difference: "hang on" handle for an easy support during the preparations, edge cleaner groove to scrape the mixture and extra-grip handle, resistant up to 220°C, for the best ease of use.

The joint between the blade and the handle is watertight, ultra resistant for the best hygiene and longevity.

SP303

Made of platinum silicone, resistant up to 250°C.

Small details that make the difference: “hang on” handle for an easy support during the preparations, edge cleaner groove to scrape the mixture and extra-grip handle, resistant up to 220°C, for the best ease of use.

The joint between the blade and the handle is watertight, ultra resistant for the best hygiene and longevity.

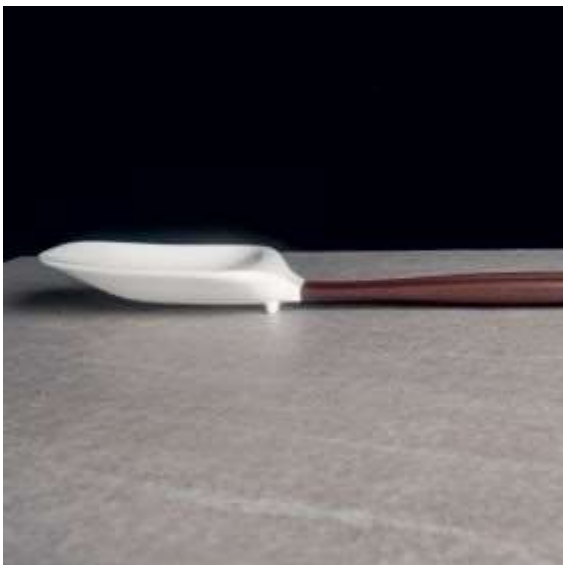

FT250

The best manoeuvrability for the best results.

The Pro Series whisks are made of harmonic stainless steel, specially designed to provide optimum flexibility and the ability to always return to their original shape.

Insulating extra-grip handle and high-temperature resistant (up to 220°C).

SP302

Made of platinum silicone, resistant up to 250°C.

Small details that make the difference: “hang on” handle for an easy support during the preparations, edge cleaner groove to scrape the mixture and extra-grip handle, resistant up to 220°C, for the best ease of use.
