ROLLERBISCUIT
SKU
ROLLERBISCUIT

Perfectly-sized biscuits in a quarter of the time.

Rollerbiscuit is a tool designed to roll out all types of biscuits and doughs of equal density quickly and accurately.

When compared to the traditional method of rolling out biscuit dough, Rollerbiscuit requires only 1/4 of the time normally used, while giving you a qualitatively superior product that is highly compact and uniform in terms of thickness and width.

The operation is 100% mechanical: Rollerbiscuit is provided with adjustment notches for the biscuit thickness and a central regulator to save the selected level. It rolls out biscuits of all shapes and sizes, but it is particularly suited to those used in the preparation of mini-pastries and logs.

Rollerbiscuit is made entirely of stainless steel, can be easily disassembled and is dishwasher safe.
